

**Amendments to the Specification:**

Please replace paragraph [0001] with the following amended paragraph:

[0001] This application is a continuation-in-part of design patent application Serial No. 29/183,333, filed June 9, 2003, entitled, "Wireless Number Pad", and design patent application Serial No. 29/183,332, filed June 9, 2003, entitled, "Wireless Keyboard." This application is related to co-pending application Serial No. [[\_\_\_\_]] 60/484,629, filed even date herewith, entitled "Wireless Input Devices for Computer System", the disclosure of which is hereby incorporated by reference.

Please replace paragraph [0020] with the following amended paragraph:

[0020] MediaPad™ device 14 is illustrated in more detail in Figure 3. The MediaPad™ device includes a liquid crystal display (LCD) 42. A number pad 44 is included, and a number pad button 46 selects the number pad function for the number pad buttons. A navigate button 48 selects the alternate functions for these number pads. In one embodiment, button 1 is "open", button 3 is "closed", button 7 is "back", button 9 is "forward", button 5 is a ~~Windows Start launching button?~~ Windows Start launching button, and buttons 4, 8, 6, and 2 are directional arrows for left, up, right, and down, respectively.
